## Peonies for Every Garden

An opportunity for every lover of beautiful plants to have a marvelous collection of the finest varieties of peonies in cultivation at such nominal prices that you may transform your garden to a veritable fairyland at a very small out-lay. The special offers we make on these peonies enable you to add to your collection or start your garden with some of the rare and choice sorts at a price almost irresistible.

Peonies for massing, for single specimens, for borders are ever suitable and beautiful. In all of the floral kingdom not another flower possesses such a variety of color, form and fragrance, or gives so freely of its beauty for the little care it requires. No other flowering plant is so long lived, so absolutely hardy, so easy to grow, so dependable for bloom year after year, so free from disease and insect pests.

Great care has been used in selecting the assortments offered and much thought has been spent in making them up so as to include a wide range of color and type in each combination. A few of the exquisite single varieties which have grown so in popularity have been named in some of the offers and no garden is complete without at least one or two of them. The figures preceding the name of varieties denote the rating given by the American Peony Society in 1921. The valuation was on a scale of ten, which represented perfection. Where no rating is shown, the variety is too new or too scarce to have had sufficient votes to judge from.

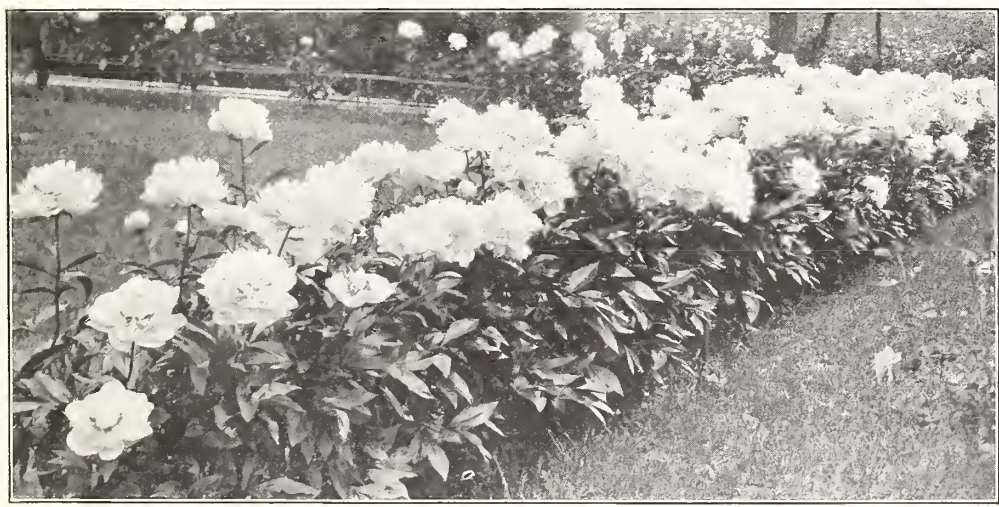

## Quality Size of Plants

We were fortunate in propagating a good quantity of the exceptional varieties named, enabling us to quote these attractive prices and thus give our customers the benefit. We aim to give you such quality and render such service

as to make you a permanent and entirely satisfied customer. Your order will be filled with strong, healthy three to five eye divisions that produce the finest results, most of which will bloom the first spring planted and meet your fondest hopes thereafter. The greatest care is exercised in getting our your orders and every variety is separately marked with a copper wired label, suitable for attaching to rod or stake. With each package we send complete directions for planting, culture and care. Peonies may be planted any time during the fall months before the ground is frozen.

Delivery will be made at the proper time for transplanting during the month of September, but your order should be sent at once so plants may be reserved and shipped at the proper planting time. Prices given cover delivery charges to you and special combinations must be ordered as named as we cannot substitute other varieties at the price asked. Individual varieties may be purchased at one each price named in the descriptive list on the inside of this pamphlet.
